CCC Remote Volunteer Opportunities:

If you are interested in any of these volunteer opportunities, please complete an online application.

- Refugee Resettlement: Youth Mentor
  - We need volunteer "mentors" for our youth Mentoring Program. We can still offer this program remotely if the mentor has a computer and is open to things like Skype, etc. So if anyone is interested in working one on one with a young adult between 16-24 years old, let us know. The program focuses on providing support to these individuals in academic, social and vocational areas. Training provided.

- Refugee Resettlement: College Prep Mentor
  - We want to do some college preparatory work with the refugee youth- which can all be done via Skype. Stuff like SAT prep, working on college applications or CV’s, etc., helping understand FAFSA and picking a major, etc.

- Refugee Resettlement: Virtual Classroom Teacher
  - The volunteer opportunity is available for individuals who are interested in Virtual Classroom Teaching for refugee students. Preferred schoolteachers with experience in google classroom, zoom or any other social media app that will allow recording or streaming live. The goal of the online interaction is to bring the newly arriving refugee students and their families, who have very limited / no English to better understand the language and American school system. The focus would be on engaging the students and families, connecting and teaching them, using the material from their school districts and help prepare them get ready for the new school year.

- Refugee Resettlement: School Liaison and Employment programs.
  - Our refugee kids need help adjusting to online work. Some are really struggling with logging onto school systems and completing homework (because of language barriers, it’s hard for parents to help).
  - For Employment, a volunteer or two to help with unemployment claims and paperwork would be helpful!

- Refugee Resettlement: Homemade facemasks for refugee clients
  - We’d like to have some masks to distribute to clients for work, job interviews (some are still taking place in person), grocery shopping etc.
